

MagConnect AMPS Mount

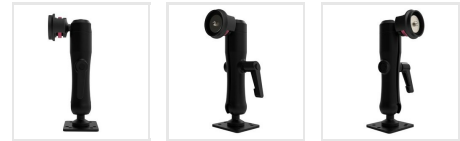

Aluminum Alloy flat surface single arm mount only with AMPS hole pattern

SKU: MMU132
MSRP: \$99.99

The MagConnect, 4-Hole AMPS drill base mounting pedestal is part of The Joy Factory's MagConnect mount series. It features a metal AMPS drill mount base providing extra stability for utility and commercial vehicle use. This mount measures approximately 7.94" inches in height, and the mount shaft is made of a combination of steel and aluminum alloy. The arm of the pedestal rotates and swivels on both the top and the bottom of the mount, providing 360-degree rotation and the ultimate flexibility in positioning the tablet at virtually any angle.

The mount is compatible with many devices especially for mobile tablets. It can be drilled into solid, flat surfaces, such as car dashboards or consoles as well as walls, tables, and workbenches. The AMPS mount pattern consists of 4-holes located in a rectangular pattern spaced at 1.2" by 1.5" (measured as the center-to-center distance between holes). This durable mount is also ideal for users such as truckers in transportation, first responders, construction, oil & gas and utility environments.

- Adjusts to any flat surface
- Features AMPS mounting 4-hole pattern
- Ideal for solid wood surfaces, dashboards, consoles, walls and work surfaces
- Built with spherical ball joints for near-infinite angle adjustment
- Magnetic connection for quick mounting and dismounting
- Mount measures 7.94" inches in height.

BENEFITS

- Configurable
- Expand Usability
- Ease of Use
- High Quality
- Ergonomic
- Increase Productivity
